December 2018

### **Year 11 Parent Teacher Consultations**

Year 11 students are now completing controlled assessments and working towards module examinations at the end of this year.

It is important for teachers and parents/guardians to meet to discuss issues which may have an impact on progress and to consider how we can best support our students both at home and in college as they work towards their final examinations.

To this end, a parent consultation morning has been organised for **Friday 4<sup>th</sup> January from 10:30am – 12:00pm for all students in 11KM**

It is important that students attend this consultation morning with their parents/guardians to meet with individual subject teachers.

As I am sure you appreciate some subjects such as English and Mathematics will have large numbers of appointments so their interview times will be limited. If however you need additional time we will make alternative arrangements for you to speak with the required teacher.

Once again many thanks for your continued support.

Colin Jones  
Pastoral Coordinator
