

Using Lexia PowerUp – For years 9 and 10 as an alternative to Core5

Lexia PowerUp is a new literacy programme launched by Lexia, it is designed to help students become proficient readers, confident learners and GCSE-ready.

PowerUp Literacy initially assesses students' reading abilities and automatically places them at the appropriate level in 3 Study Strands:

- **Word study** – targets gaps in basic reading skills and develops academic vocabulary.
- **Grammar** – improves written composition and reading comprehension.
- **Comprehension**– teaches the skills required for higher order text analysis.

Once placed, students work independently on each strand where they can monitor progress on their personal dashboard. To support independent learning and maximise time on the program, Lexia PowerUp Literacy Reading can be used at home and is available on multiple devices including iPad.

Getting Started.....

Either download the Lexia PowerUp app

Or

<https://www.lexiapowerup.com/> use this link to use PowerUP on a computer.

On first using a new device you will be asked for a teacher's email, please use;

kmallon818@c2kni.net

Then enter your username and password.

Your username is your C2k username without the numbers e.g my username would be kmallon

The password for all accounts is 'password'.

To allow all pupils access to this programme years 9 and 10 will have access on Wednesday, Thursday and Friday. These days may change subject to demand.
