MY TIME AT BLACKWATER

I started Blackwater in September 2009, and during my time at school I made friends for life and memories which I'll always treasure. I don't consider myself to be academic and I often needed extra help so without the support I received at Blackwater I wouldn't be where I am today.

The staff at Blackwater always made sure that they were doing the utmost to help you achieve the grade you wanted- and more. Like others, I always wished that the school had a sixth form as we didn't want to leave.

In my time at Blackwater, I captained the girls' football team to four school finals and I was even made House Captain. I played in a wide range of sporting teams and still hold some school records from sports days. If it wasn't for Blackwater and its teaching staff, I wouldn't have found my passion for sports and education which enabled me to further my own education and find my dream job.

QUALIFICATIONS

- L3 National Diploma in Sport (SERC)
- BSc (Hons) Physical Education, Coaching and Development (St Mary's University Twickenham)

WHERE AM I NOW?

Currently I am working for Harlequins Rugby Club who are a premiership club based in London. My role at Quins is an Educational Tutor who delivers BTEC and GCSE qualifications to range of NEET and Special Needs learners aged 16-20 years old. I got into this job through the hard work I had put in during my education. If it wasn't for the staff at Blackwater who sparked my love for both education and sports during my time on placement there, I wouldn't be where I am today. I really enjoy my job, mainly because it is so rewarding helping students achieve qualifications that they thought they wouldn't get after leaving school.

Teaching is such a rewarding job and I have the greatest respect for all my past teachers having now experienced everything they go through day to day. I'm now able to use my experience of academically struggling and the support I received when I was at school to help my learners through education and into the world of
