Year 8 Parental Consultations

Dear Parent/Guardian

Following our Year 8 Parental Consultations on Monday there is a small number of people who did not get the opportunity to speak with all staff members they had appointments booked with regarding their child's progress. Unfortunately there was a fault with the School Cloud programme, that we have used several times previously, which resulted in blacked out screens and no audio.

As a result of this staff phoned many of those parents affected but there is still a small number of parents who we were not able to get to speak to. As parental input is very important we plan to rearrange these consultations for Monday 21st February from 3.10pm – 4.10pm. We have a list of those appointments that could not be fulfilled and we will reset the system and send out the link to make new appointment timings early next week for those people who wish to avail of this.

Once again, apologies for the inconvenience this has caused. School Cloud and C2k, who operate our school ICT system, have assured us that the system is now working again and there should not be any further issues. We will be in touch with the booking arrangements early next week to allow sufficient time to get appointments booked in.

Yours sincerely,

Stephen Taylor

Principal
