

Building Inspiring Caring

To Parents/Guardians of Year 8-11 Students

June 2022

Examination week 13th June – 16th June:

Students in Years 8-10 will complete their final assessments during the week commencing 13th June. Timetables are listed below for each year group. We recommend students prepare for these examinations with home revision and appreciate parental support in emphasising the importance of revision before any examination.

Year 11 have already completed many examinations through module examinations and internal tests. As many students in Year 11 complete portfolio type courses where work is continually assessed and collated we will be using this week to allow all Year 11 students the opportunity to ensure they are up to date with all work. Staff will be working with students, following what has been a disrupted year at times, to allow them to be in a position to start Year 12 in September with all work completed.

Nurses will also be visiting for Year 9 and 10 during this week and we are currently trying to rearrange times so they do not disrupt students during exam times.

Monday 20th June

Our new Year 8 intake for 2022/23 are having their induction day on Monday 20th June 2022. **Only Junior leaders** are required to attend on this day to help work with our incoming students and allow them to get familiar with their new surroundings before starting in August 2022.

Uniform Exchange

We are continuing to collect any uniform that your child may have grown out of that can be used by others. This can be very useful to support some students and families and we appreciate any uniform that can be recycled in this way.
