

Blackwater Integrated College

Online Safety Policy

Previous policy dates: 2021 – 2026 (Reviewed Sept 2026)

Current policy date ratified by Board of Governors: 17th September 2026

Date of Review: September 2028 or as guidance changes

Declan McAlorum
C2K Manager

1. INTRODUCTION

1.1 This policy acknowledges and complies with DENI circulars 1999/25, 2007/01, 2011/22, 2013/25, 2016/26, 2016/27 and more recently 2026/02 and 2026/16.

1.2 What is the Internet, Cloud and Digital Media?

- **Internet:** The internet is an electronic information highway connecting many millions of computers and individual subscribers all over the world. As this global network is not governed by an international body, there are obviously dangers concerning the kind of information that is accessible to its users. However, the educational value of appropriate use of information and resources located on the internet is substantial.
- **Cloud:** Cloud based learning and teaching encompasses a broad range of educational resources available in an online environment. This includes My School, GAFE (Google Apps For Education), and other online resources.
- **Digital Media:** This covers all hardware, software, portable and non-portable devices used for educational purposes inside and outside of school.

1.3 Rationale for pupil use of the Internet, Cloud and Digital Media

The school encourages pupils to use the rich educational information sources available on the internet and cloud, together with the development of appropriate skills using digital media to fully utilise such resources. Online resources offer pupils a broad range of up-to-date information; provide independent research facilities; facilitate a variety of learning styles; and encourage pupils to take responsibility for their own learning. E-literacy is a fundamental requirement for all pupils in order to prepare for the continually developing technological age that we live in. Google Drive and Microsoft OneDrive are the cloud services available for all staff and pupils.

1.4 Networked Access to the Internet, Cloud and Digital Media

The school provides filtered internet access to pupils and staff through C2k provided connectivity. Only filtered internet connections provided by, or on behalf of the school may be used to access on-line material at school. Access to the Internet using the C2K system. Parents, pupils and staff are reminded that all mobile electronic devices must also be used in accordance with the mobile phone policy.

1.5 How will pupils gain access to the Internet, Cloud and Digital Media at School?

- During ICT lessons
- Through subject use across the curriculum
- During extra-curricular activities
- In the study areas, during normal school hours and occasionally at other times
- Through Wireless provision (C2K filtered)
- Through use of school C2K devices/iPads/Chromebooks/iMacs

1.6 Are there any dangers associated with using the Internet, Cloud and Digital Media?

Since the internet and cloud is composed of information from a vast array of sources worldwide, it includes some material that is not of any educational value in the context of the school. This material may include information that is inaccurate, abusive, profane, sexually oriented, racist or illegal.

In order to guard young people from any inherent dangers, it is the joint responsibility of the school and parents/guardians to educate pupils about their responsibility when using the internet and cloud.

1.7 Promoting Safe Working Practices

The school is determined to continue to provide high quality training for staff and pupils to make best use of its ICT facilities. Pupils will be provided with appropriate training and guidance on how to appropriately use the internet, cloud and digital media during KS3 ICT classes, Pastoral Programmes and assemblies. Staff will continue to receive appropriate training in the safe use of the internet, cloud and digital media including areas such as content risks, contact risks, conduct risks and commercial risks outlined in circular 2016/27. Pupils and staff will also be advised of the Health & Safety issues surrounding the use of digital media technology.

1.8 Promoting Awareness with Parents, Governors and Community

The school is committed to ensuring all stakeholders are made aware of this policy. The policy will be disseminated to parents, governors and staff. It will also be available on the school website so that other interested stakeholders can have full access. In addition, regular references will be made to the policy in communications with all stakeholders.

2. RESPONSIBILITIES OF STAFF AND PUPILS

2.1 Pupils are responsible for good behaviour when using the internet, cloud and digital media just as they are in the classroom or elsewhere in the school. All students are expected to adhere to the College Rules.

2.2 The school has a filtered internet, cloud and e-mail service. Pupils and staff will be made aware that internet, cloud and e-mail services are monitored and are not therefore private; internet, cloud activity and e-mail messages can be viewed by the Principal at any time. While normal privacy is respected and protected by password controls users must not expect internet and cloud activity, e-mail or files to be absolutely private.

2.3 Whilst access to the internet through C2k is heavily filtered to protect the interests of staff and pupils, in certain circumstances access may be granted for staff to access sites which

would normally be restricted such as those who work on the school social media platforms. Requests for access to blocked sites should be made using the block site access from MySchool. In accessing these sites, staff should exercise caution. These sites may contain inappropriate or questionable information including user generated content. It is the responsibility of staff who wish to use these restricted sites to suitably vet the links they plan to use.

2.4 Particular care should also be taken while projecting information from a digital media device onto a whiteboard or other form of facility, as inappropriate material may be displayed. Access to the internet, cloud and digital media requires parental permission and a signed declaration by pupils agreeing to the College expectations for use of the internet, cloud and digital media (Appendix 2).

2.5 The school will ensure that all pupils understand how they are to use the internet, cloud and digital media appropriately and why the rules exist.

2.6 The internet, cloud and digital media is provided for pupils to conduct research, communicate with others and fulfil their curricular requirements. While the use of information and communication technologies is a required aspect of the statutory Northern Ireland Curriculum, access to the internet, cloud, digital media and C2k NI services remains a privilege and not a right. Access is granted to pupils who act in a considerate and responsible manner, and will be withdrawn if they fail to maintain acceptable standards of use.

2.7 During school hours, teachers will guide pupils towards appropriate materials. Outside school hours, families bear responsibility for such guidance as they must also exercise with information sources such as television, telephones, movies, radio, and other potentially offensive media. Please note that any filtering available at home may not be subject to the same stringent requirements as we have in place to protect users at school. Additionally parents need to be aware of advertisements banners on sites; these may contain inappropriate materials.

2.8 When using the internet, cloud and digital media at school, all users must comply with all copyright, libel, fraud, discrimination and obscenity laws.

2.9 If at any time pupils find themselves able to access internet sites which they think should be blocked, from within the school, they should advise their teacher immediately. Likewise, staff should immediately advise the C2k Manager.

2.10 Any resources or materials downloaded by teachers, pupils or parents for use within school, must abide by the requirements of this policy and be suitable for use in the classroom. If an individual is unsure regarding the appropriateness of content, they should seek advice from the member of the Senior Leadership Team before accessing the material within school.

2.11 All school resources (including computers, laptops, tablets and other digital devices) and their associated accessories are provided for educational use; they must not be used for any other purposes. Only portable resources may be removed from school, to facilitate preparation for teaching and learning.

3. EXAMPLES OF ACCEPTABLE AND UNACCEPTABLE USE OF THE INTERNET, CLOUD AND DIGITAL MEDIA

3.1 Activities which are encouraged include, for example:

- The use of digital media for appropriate educational purposes only to communicate between colleagues, between pupil(s) and teacher(s), between pupil(s) and pupil(s), between schools and industry;
- Use of the internet, cloud and digital media to research and develop topics related to social, personal, academic and professional development;
- Use of the internet, cloud and digital media to investigate careers, continuing professional development and Further/ Higher Education; and
- The continuing development of pupils' and staff's ICT competence skills.

3.2 Activities which are not permitted include, for example:

- Retrieve, store, send, copy or display offensive information;
- Use obscene, racist or offensive language;
- Harass, insult, bully (cyber bullying) or cyber attack others;
- Share or use another user's password;
- Leave a computer unattended when it is logged on;
- Trespass in another user's folders, work or files;
- Intentionally waste resources (such as on-line time and consumables);
- Use the network for unapproved commercial purposes;
- Share information with others relating to another without their prior consent;
- Share intimate information or images about themselves or others;
- Use ICT resources in any way that contravenes Health & Safety guidelines;
- Search, download, view and/or retrieve materials that are not related to the aims of the curriculum or future careers;
- Damage any school device, computer system or computer network. This includes hardware, software, files or information stored/displayed on any school device;
- Load / connect any unauthorised outside software or hardware onto the school system;
- Spread computer viruses (all downloaded files and external storage devices must be

- checked for viruses before being used on the school system);
- Violate copyright laws - copy, save and/or redistribute copyright protected material;
 - Attempt to access the internet independent of the school's filtered C2K system. No other wireless or wired internet connection is permitted (including mobile internet);
 - Subscribe to any services or order any goods or services, unless specifically approved by the school;
 - Play computer games or use interactive social media 'chat' sites, unless specifically assigned by the teacher;
 - Use the network in such a way that use of the network by other users is disrupted (for example, downloading large files during peak usage times; sending mass email messages);
 - Publish, share or distribute any personal data/information about a user (such as home address, email address, phone number etc.);
 - Any activity that violates a school rule;
 - Use any equipment to photograph, record or video any school activity for which explicit permission has not been given;
 - Use or distribute, including on social networking sites, any material relating to school activities, pupils or staff for which explicit permission has not been given. This includes the posting of material, images or video footage relating to school staff, pupils, the school environment or school name without prior written consent from the Principal. This applies to curricular and extracurricular aspects of school life as well as to all school trips; and
 - Engage in any activity that is harmful or hurtful to others.
 - Pupil usage of personal mobile phone devices throughout the school day.

3.3 Network Monitoring

SECURUS is software that is installed on the network and records all pupil activity and reports back observations (screen captures) to the C2K Manager. The software monitors activity using the following technologies:

- **Key Stroke Monitoring:** monitors words typed by the user, across an extensive list of applications.
- **Application Monitoring:** monitors file content, across an extensive list of active applications.
- **Optical Character Recognition:** monitors all screen content, converting text into a recognisable format.

All users of the C2K network's internet are monitored by C2K and the Principal can request an Internet access log if it is deemed necessary.

4. SANCTIONS

4.1 Violation of the above rules will result in a temporary or permanent ban on internet, cloud and digital media use. Additional disciplinary action may be added in line with existing school discipline policy rules on inappropriate behaviour such as the Anti Bullying Policy. Where applicable, the PSNI or local authorities may be involved.

5. LOCATION AND PUPIL SUPERVISION

5.1 There is broad access to the internet, cloud and digital media covering most areas of the school including filtered C2K wifi.

5.2 In order to reinforce good practice, it is important that pupils should frequently be reminded of their responsibility to use the internet, cloud and digital media in line with the school policy on acceptable use.

5.3 While using the internet, cloud and digital media at school, pupils should, where possible, be supervised by a member of staff.

6. STAFF USE OF INTERNET, CLOUD AND DIGITAL MEDIA

6.1 Teacher use of the C2Kni service, non-C2K networks and digital media devices must be in support of the aims and objectives of the school curriculum and School Development Plan. C2K NI in particular supports the implementation and sharing of effective practices and collaborative networking across the province, as well as nationally and internationally.

6.2 The internet, cloud and digital media training of staff will also focus on the use C2Kni resources, amongst others, in their teaching and learning activities, to support the school's pastoral life and streamline administration procedures. Furthermore, staff will be given the opportunity to request additional training at any time.

6.3 All school staff (both teachers and non-teaching staff) are expected to communicate in a professional manner consistent with the rules of behaviour governing employees in the school.

6.4 Staff must not communicate with pupils, either personally or professionally, using social networking sites, email or other technologies which are not managed or approved by the school

or C2k providers. Staff are advised that it is neither acceptable practice, nor school policy, to befriend or browse the profiles of pupils or parents using social networking sites e.g. Facebook, Snapchat and Instagram. Similarly, it is not considered appropriate or acceptable for pupils or parents to request "friend" status with staff. Furthermore, for both professional and personal security, staff are strongly encouraged to regularly review their own personal security settings on social media sites in line with similar advice and guidance provided for pupils annually. All school representatives should bear in mind that information they share through social networking applications, even if they are on private spaces, is still subject to copyright, data protection and Freedom of Information legislation. It is never considered acceptable behaviour for staff to reference school business, policy, practice or pupils via any social media unless through an officially created and maintained account.

6.5 It is the responsibility of the school network manager to ensure that, in the absence of available technical support, the integrity of the network is preserved to a level which safeguards both data and child protection procedures.

7. ACCEPTABLE USE OF DIGITAL MOVING/STILL IMAGES OF PUPILS

7.1 All staff should follow the guidance below when dealing with taking, display, storage and use of moving/still images of pupils.

7.2 Taking of Photographs/Video of Pupils

Parents will be asked to give their consent in writing to a range of such activities. A central database will be maintained of those pupils for whom parental permission has and has not been received. Staff will be required to consult this database prior to taking any images of pupils.

7.3 Display/use of Photographs/Video of Pupils

Staff are permitted to capture and/or use moving/still images of pupils, for whom parental permission has been appropriately received, for display purposes and publicity in and outside school, in school publications, on the school digital signage and website. Where staff require additional guidance on the display/use of moving/still images of pupils, the Principal should be consulted. The Principal must grant permission for images of pupils to be distributed to any external media provider.

7.4 Capture & Storage of Photographs/Video of Pupils

Staff are encouraged to use school devices to assist with the taking of photographs/video for school business. It is recognised, however, that in many circumstances (for example, field trips, sporting events or incidental activities within departments) this is not always possible or

appropriate. In these circumstances, staff are encouraged to capture moving/still images of pupils using hardware which has been procured by the school. It is not considered acceptable to use personal mobile phones to capture any such images. Furthermore, it should not be normal practice to store images of pupils (however obtained) on school/personal digital media devices, in a printed format or on any external memory device as a matter of course for prolonged periods of time. As a result staff should ensure that any images of pupils stored digitally should be stored on C2K staff folders.

1. Staff must transfer digital media from capture devices to C2k staff folders/Staff Shared at the earliest possible opportunity. In order to maximise the efficient use of school resources, staff should do this by ensuring that:
 - ONLY files which are most suitable for school business are selected
 - Selected files are copied to a shared C2K staff folder
 - Remaining images from the initial capture device are deleted
 - Images are located in an appropriately named folder. (Consider Activity Year Group - Date to be appropriate, e.g. "Ardnabannon Y8 20.9.20")
2. Staff are discouraged from storing images of pupils on school provided portable devices; however, it is recognised that, to facilitate editing or selection this may be essential. In these circumstances, personal portable devices should not be used. It is expected that, after initial use by staff, digital images of pupils should be deleted from portable devices.
3. Staff should not pass images of pupils to third parties without consulting the Principal. Please consult the Principal if you require further advice.

Specialist Course Requirements:

Some subjects, for example Prince's Trust, Occupational Studies and physical education, have specialist course requirements which necessitate the use of digital moving/still images of pupils to address course criteria. In some circumstances, technical limitations of the C2k system prevent files from being usefully stored within the staff resources area. In subjects where these circumstances have been identified, the storage of digital images is permissible on external storage (encrypted, if taken off site) devices providing:

1. The storage device is owned by the school.
2. The storage device is normally retained within the school building.
3. All departmental staff members are fully aware of the purpose of the specific storage device and its normal secure location within the school building.

There may be a need, at certain times throughout the year, to facilitate formative and summative feedback or assessment. In these circumstances, the storage device may be taken home by the staff member concerned providing:

1. All reasonable precautions are taken to ensure the security of the storage device.
2. The storage device is returned to school at the earliest opportunity.

3. The storage device is strictly used for purposes approved by the school only.
4. The storage device is encrypted with a password.

8. INFORMATION AND DATA MANAGEMENT

8.1 The school values the importance of appropriate data management procedures and practices and requires all staff to be prudent regarding sensitive personal materials, whether paper based or electronic.

Staff are encouraged to use SIMS.net to access the personal information of pupils. This is provided within school and is always password protected. Sims App allows access to sensitive data on staff iPads which requires unique staff authorisation codes and regular password security.

Staff must not store electronic copies of sensitive personal information on the following:

- Any personally owned portable or non-portable device.
- Portable storage devices e.g. portable hard-drive or memory stick. (Neither School procured nor personally owned portable devices are considered acceptable for sensitive data).

Staff may store basic pupil information electronically, for example, name, form class and performance statistics, for the purposes of recording pupil achievement throughout the year. This information may be removed from the school building to facilitate assessment activities. Staff must ensure that they hold the minimum amount of personal data necessary to enable them to perform their duties. The data must not be held any longer than necessary for the purposes it was collected for. Every effort must be made to ensure that data is accurate, up to date and that inaccuracies are corrected without any unnecessary delay. Staff are advised to be prudent about the sensitivity of this data and are required to maintain its confidentiality.

9. PERMISSION FROM PARENTS AND GUARDIANS

9.1 Parents/guardians will be provided with the Online Safety Policy and permission will be sought for their child/ren to use the internet, cloud and digital media. Pupils are also required to sign an undertaking agreeing to their proper use of the internet, cloud and digital media.

10. USE OF SOCIAL MEDIA SITES FOR EDUCATIONAL PURPOSES

10.1 Subject to the approval of the Principal, staff may use social media sites for educational purposes only.

Staff requesting the use of such sites for educational purposes must:

- Specify the proposed site;
- Specify who would be involved;
- Provide a clear rationale stating the benefits of the proposed activity; and
- State how long the site will be operational.

Only one member of staff should be responsible for the operation of the site. Their login and password details must not be shared. Another nominated member of staff should be responsible for the frequent moderation of the site. This will normally be the relevant Head of Department. The social media site must only be used for educational purposes strictly related to the topic(s) being covered. Any breach of this or unacceptable behaviour may result in the user being denied any further access to the site. The user will be subject to any appropriate disciplinary procedures in line with the school's Online Safety Policy.

Approval must be sought from the parents/guardians of any pupils who may be using the site before access is granted.

11. BRING YOUR OWN DEVICE (BYOD)

11.1 The use in school of devices owned personally by staff and pupils is subject to the same regulations/rules as if they were provided by the school. Pupils are not permitted to use personal devices in school. Pupils are permitted to access their allocated chromebook within school under the terms and conditions in the loan agreement outlined in Appendix 3.

Please note: Some devices may not be suitable for use on the school network. The school cannot guarantee connectivity or the quality of the wifi connection with personal devices.

The user/owner of a device being connected to the school network should adhere to the following conditions:

1. The device must be used in accordance with the Online Safety Policy.
2. Any inappropriate content stored on the device in breach of the Online Safety Policy must be removed before it is brought into the school premises.
3. An up-to-date anti-virus/internet security product must be installed on the portable device or external storage device.

4. As the school's insurance does not cover personal devices used in school, appropriate insurance measures should be in place to cover the device for this application.
5. As devices may have a tracking facility, it would be advisable to have it enabled when being used in school to assist in the relocation of the device if lost or stolen.
6. The school accepts no responsibility for any privately owned devices brought into school. Pupils/staff are solely responsible for the safety (including content) of devices on their way to school, during school and on the return from school. It is the responsibility of pupils/staff to look after their own personal devices and therefore they should keep the devices with them at all times. The school is in no way responsible for personal devices that are broken, lost or stolen while at school or during school activities.
7. Use of the internet, cloud and email is monitored and any use that is deemed to be inappropriate will be reported to the Principal. The Principal can request internet, cloud and email usage log for all users at anytime.
8. Devices may be checked at any time for inappropriate use.
9. If a student or member of staff finds inappropriate and/or illegal materials available on their device, the Principal should be informed immediately, giving details of their name, inappropriate material, time and date of incident.
10. There should be no use of camera facilities (if available on the device) to take images or video of pupils or staff without permission.
11. Users who wish to connect their personal equipment to the school wireless network should have no expectations of hardware or software support from the school. Permission will need to be granted from the C2K manager for this to proceed.
12. Devices should be named ideally with a UV pen in accordance with advice from the police.
13. Pupils and staff will be responsible for the security and protection of their passwords and if a device is left unattended the user should have either logged off or locked the device to prevent anyone using it in their absence.
14. All use of the Internet is governed by a legal agreement with our Internet Service Provider (ISP).
15. If a user suspects that their device has been affected by a virus or other malware, it should be removed from the school network and fixed before using it on the school network again.
16. Personal devices should not be connected to the school's peripherals, e.g. printers. Printing from personal devices may not be possible (Pupils are not permitted to bring their own personal printing devices).
17. Pupil owned personal devices should be charged before school and should run on battery power while at school.
18. Portable devices/electrical items owned by staff members or pupils are not to be brought into the school unless they have a current Test Certificate (i.e. within the last 12 months, see technician for updated certificate). In all instances, the school is to be made aware of the intention to use 'private' electrical equipment in the School.

19. The school is in no way responsible for the maintenance of any device (keeping it charged, installing updates or upgrades, fixing any software or hardware issues).
20. Filtering may not block all inappropriate content.
21. Internet access can be removed for individuals and appropriate sanctions applied.
22. Pupils and staff should be conscious of personal safety when carrying devices to/from and around school.
23. Pupils and staff should be conscious of personal safety when communicating on-line, and therefore must not share unnecessary personal information about themselves or others.
24. The school reserves the right to withdraw permission, at any time, to allow any individual to use personal devices in school.

12. USE OF GENAI

12.1 Section Context

This section of the policy acknowledges and complies with Department of Education Northern Ireland (DENI) Circular **2026/02** (*Guidance for education professionals on the use of Generative Artificial Intelligence*), alongside existing safeguarding, data protection (UK GDPR), and ICT acceptable use frameworks. C2K provides @c2ken.net secure account access to both Google and Microsoft GenAI software for school administration and educational purposes.

1.2 What is Generative Artificial Intelligence (GenAI)?

Generative AI refers to digital tools capable of generating text, imagery, audio, or code based on user prompts (e.g., C2K / EdIS enterprise tools such as Microsoft Copilot and Google Gemini). When deployed within managed educational environments, GenAI offers significant opportunities to support lesson planning, administrative efficiency, resource creation, and tailored learning support.

1.3 Rationale

Blackwater Integrated College encourages the safe, ethical, and effective use of approved GenAI technologies to streamline administrative workload and enhance teaching and learning, while upholding rigorous standards of child protection, data privacy, and academic integrity.

RESPONSIBILITIES OF STAFF AND PUPILS

2.1 Professional Judgment & Human Oversight

GenAI is a supportive tool and must never replace human teacher professionalism or professional assessment. Staff must critically review and verify all AI-generated content for accuracy, appropriateness, age suitability, and potential bias before classroom deployment.

2.2 Data Protection & Confidentiality (UK GDPR)

Under no circumstances should personal, sensitive, or identifiable data regarding pupils or staff (e.g., full names, SEN information, child protection records, contact details) be entered into any unapproved online AI tool outside of the @c2ken.net login.

2.3 Approved Systems & Environment

Staff and pupils must only access GenAI capabilities through school-approved, C2K/EdIS managed environments. The use of personal or unmonitored AI accounts for school business or processing sensitive information is strictly prohibited.

2.4 Academic Integrity & Student Use

Pupils are expected to submit original work for all assessments, classwork, and homework. Misrepresenting AI-generated output as a pupil's own work constitutes academic malpractice in accordance with Joint Council for Qualifications (JCQ) guidance and school policy.

ACCEPTABLE AND UNACCEPTABLE USE OF GENAI

3.1 Acceptable Use for Staff (Encouraged):

- Curriculum planning, lesson design, and preparation of teaching resources.
- Drafting administrative communications, templates, and reports
- Developing differentiated learning materials, low-stakes revision aids, and quizzes.
- Enhancing digital literacy and exploring innovative pedagogical practices.

3.2 Unacceptable Use (Prohibited):

- Inputting sensitive personal, safeguard, or confidential data into AI platforms outside of @c2ken.net approved AI Gen systems.
- Relying solely on AI output for pupil assessment, reporting, or formal feedback without teacher review.
- Allowing pupils to present uncredited AI-generated material as original work.
- Using non-filtered or personal AI software on school-owned devices or networks.

MONITORING AND SANCTIONS

4.1 Monitoring

All C2K and EdIS managed network access and GenAI tool activity are subject to monitoring via SECURUS and C2K network logs similar to general internet access

4.2 Sanctions

Breaches of this policy by pupils will result in disciplinary action under the College Discipline and

Anti-Bullying policies, alongside academic malpractice procedures. Staff non-compliance will be addressed in accordance with standard professional conduct and administrative procedures.

We hope that following these instructions will help to make the use of ICT a positive experience for both our pupils and staff.

This policy will be reviewed and updated as required.

APPENDIX 1: Additional Advice for Parents with Internet Access at Home

1. The device with Internet access should be situated in a location where parents can monitor access to the Internet. Devices should be fitted with suitable anti-virus, anti-spyware and filtering software.
2. Parents should agree with their children about suitable days/times/durations for accessing the internet.
3. Parents should discuss with their children the College expectations for using the internet, cloud and digital media and implement these at home. Parents and children should decide together when, how long, and what comprises appropriate use.
4. Parents should get to know the sites their children visit, software/apps they use and talk to them about what they are learning.
5. Parents should consider using appropriate internet filtering software for blocking access to unsavoury materials. Further information is available online.
6. It is not recommended that any child under 16 should be given unmonitored access to social media or chat facilities.
7. Parents should ensure that they give their agreement before their children give out personal identifying information in any electronic communication on the internet, such as a picture, an address, a phone number, the school name, or financial information such as credit card or bank details. In this way they can protect their children (and themselves) from unwanted or unacceptable overtures from strangers, from unplanned expenditure and from fraud.
8. Parents should encourage their children not to respond to any unwelcome, unpleasant or abusive messages, and to tell them if they receive any such messages or images. If the message comes from an internet service connection provided by the school or by C2k, they should immediately inform the school.
9. Please note for your own information that many social networking sites have a minimum age restriction. In the case of Facebook, for example, the recommended age for use of this site is 13 years of age.

Further free advice for parents is available from online guidance and safety resources (e.g., Thinkuknow, Parents Online, Kidsmart, Wise Up to the Net, GetNetWise).

Protecting Your Home Computer

To protect your home computer, parents are advised to ensure the following items of software are installed on their home computers: Anti-Virus / Internet Security, Filtering and Anti-Spyware Software.

APPENDIX 2: Sample Letter to Parents/Guardians & Permission Form

Dear Parent/Guardian,

Online Safety Permission Form

Please note the Online Safety Policy can be viewed on the School Website.

As part of the school's E-Learning strategy, we offer pupils access to a filtered Internet service. Before being allowed to use the Internet, all pupils must obtain parental permission and both they and you must sign and return the enclosed form as evidence of your approval and their acceptance of the school rules on this matter.

Access to the internet will enable pupils to explore thousands of libraries, databases, and bulletin boards while exchanging messages with other users throughout the world. Families should be warned that some material accessible via the internet may contain items that are illegal, defamatory, inaccurate or potentially offensive to some people.

Whilst our aim for internet use is to further educational goals and objectives, pupils may find ways to access other materials as well. We believe that the benefits to pupils from access to the internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. We have put in place a filtered internet, cloud and e-mail service to minimise the dangers of pupils gaining access to unsuitable materials. In addition a clear set of rules and procedures for pupil use of the internet, cloud and digital media has been implemented. Ultimately, however, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, the school supports and respects each family's right to decide whether or not to apply for access.

During class, teachers will guide pupils towards appropriate materials. Clear rules and procedures are in place for proper use of the internet, cloud and digital media. Outside of school, families bear the same responsibility for such guidance as they exercise with information sources such as television, telephones, movies, radio and other potentially offensive media. Appropriate home use of the internet, cloud and digital media by children can be educationally beneficial and can make a useful contribution to home and school work. It should, however, be supervised, and parents should be aware that they are responsible for their children's usage at home.

An increasing number of mobile phones and other portable devices have the capability to access the internet/cloud. It is possible to access most of the internet in much the same way

you can at home or at work, and in the same way, you should endeavour to protect yourself and your child online.

Whilst we endeavour to continue to educate in this challenging area, pupils are only permitted to access online materials using internet connections provided and filtered by, or on behalf of, the school. We appreciate your ongoing support as we work together to ensure the safety of your child and those in our wider school community.

The widespread availability and use of social networking applications bring opportunities to understand, engage and communicate with our audiences in new and exciting ways. However, we would ask for your cooperation in relation to our Online Safety Policy.

Please note for your own information that many social networking sites have a minimum age restriction. In the case of Facebook, for example, the recommended age for use of this site is 13 years of age.

We would be grateful if you could read the enclosed guidance documents and then complete the permission form which follows.

Yours sincerely,

Principal

Internet Access Permission Form

Please complete and return this form to your child's Form Teacher to enable internet access to be provided for your child with full acceptance to conditions in the Online Safety Policy for their time at Blackwater Integrated College.

Name of Pupil:	
Form Class:	

Pupil Declaration

As a school user of the internet, I agree to comply with the Online Safety Policy for my time at Blackwater Integrated College.

Pupil Signature:	 —	Date:	
-----------------------------	------------	--------------	-------

Parent/Guardian Declaration

As the parent or legal guardian of the pupil signing above, I grant permission for my son/daughter to use Internet, email and cloud services. I understand that pupils' use is monitored through SECURUS software at all times and they will be held accountable for their own actions. I also understand that some materials on the internet may be objectionable and I accept responsibility for setting standards for my daughter / son to follow when selecting, sharing and exploring computer information and media.

I have read and understood the Online Safety Policy and give my son/daughter approval to use ICT devices within school. I understand that the school accepts no liability in respect of any personal ICT device used in school by a student.

I understand and accept the disclaimer below. I understand that my son/daughter must comply with the Online Safety Policy.

** The School endeavours to take all practical precautions, based on best practice guidance, to prevent access, whether purposeful or accidental, to objectionable or inappropriate material. These measures include filtering of known inappropriate websites, chatroom services etc. However, it is not possible to predict every possible avenue of access, although we act continually to improve the efficiency of our systems.*

This contract will remain in force throughout my son's/daughter's time at Blackwater Integrated College and may be revised to take account of technological advancements in the interests of pupil and staff safety.

APPENDIX 3: CHROMEBOOK LOAN AGREEMENT FORM

TERMS AND CONDITIONS COVERING THE LOAN OF THE CHROMEBOOK

Blackwater Integrated College has agreed that the identified Chromebook as detailed in the attached Chromebook Loan Record will be loaned to you for the educational benefit of your child for a period initially up to 18th June 2027. This loan is subject to review on a regular basis and can be withdrawn by Blackwater Integrated College at any time. Blackwater Integrated College also reserves the right to substitute the Chromebook at any time if necessary.

As a parent/guardian/carer of a pupil and the responsible person to whom this Chromebook has been loaned you have read and agreed to the following terms and conditions:

1. The Chromebook remains the property of Blackwater Integrated College and has been loaned for the sole purpose of assisting in the delivery of the school curriculum to the named pupil or pupils.
2. When the term of this agreement ends you as the responsible person will return the Chromebook to the School Contact by a specified time and in a specified manner.
3. You should return the Chromebook to the School Contact in the same condition as you received it excepting for reasonable wear and tear.
4. You should return the Chromebook in person so that it can be inspected by the school for any visible damage.
5. Any change of home address by the named pupil must be notified to the School Contact without delay.
6. The Chromebook and the connectivity equipment must not be used for any illegal and/or anti-social purpose.
7. The Chromebook may be used by other family members whilst supporting the named pupil's education but must not be used for any other activities unless otherwise approved by the school. On no account must the Chromebook be used by anyone else or be allowed to go out of the possession of the responsible person or named pupil.
8. As the responsible person you must ensure that:
 - a. The named pupil and any permitted family user supporting the named pupil's education treats the

Chromebook with appropriate care and the Chromebook is maintained in good condition.

- b. The Chromebook is not left unattended without being stored securely.
 - c. The named pupil and any permitted family user avoid food and drink near the Chromebook.
 - d. The Chromebook is charged each evening in preparation for the next school day.
9. Blackwater Integrated College cannot accept responsibility for the loss of work in the event of the Chromebook malfunctioning.
10. It is the responsibility of the named pupil to back-up their work regularly.
11. You must only use software licensed, authorised, or installed by Blackwater Integrated College and C2k.
12. Anti-Virus software installed by Blackwater Integrated through C2k must not be uninstalled.
13. Blackwater Integrated College will require the Chromebook to be returned to the school for upgrades and maintenance during the summer holidays each year. The Chromebook will be returned in September providing the annual fee has been paid. Please note that because of these upgrades, it may be necessary to completely remove all information contained on the Chromebook. Blackwater Integrated College cannot be held responsible for the loss or damage of any data on the Chromebook during this process. The Chromebook must be returned to the school without unnecessary delay by the responsible person as and when requested.
14. During the upgrade and maintenance process, technical members of Blackwater Integrated College staff may view data or programmes on the Chromebook. You will be held responsible for ensuring use of the Chromebook is in accordance with the school's acceptable use policy at this point. You may want to remove personal data from the Chromebook before its return.
15. All technical support and maintenance issues must be raised with the School Contact initially without unnecessary delay.
16. If the Chromebook is stolen, you must immediately report it to the police and get a crime reference number. You must immediately report this to the School Contact.
17. If the Chromebook is accidentally damaged, you must immediately contact the School Contact and the equipment presented for examination. You must not arrange to have repairs undertaken elsewhere. Blackwater Integrated College will do its best to repair the damage. If this is not possible, replacement will be considered on a case-by-case basis. If this damage is not the result of normal wear and tear, you will be liable to reimburse Blackwater Integrated College for any reasonable repairs and labour costs.

18. As the responsible person you must ensure that that the external face of the equipment provided is not decorated or changed in any way, including affixing stickers.
19. Reasonable health and safety precautions should be taken when using the Chromebook.
Blackwater Integrated College is not responsible for any damage to person or property resulting from the Chromebook loaned.
20. Blackwater Integrated College is not responsible for any costs resulting from the use of the Chromebook and the connectivity equipment, including electricity, printer cartridges, paper or any cost occurring from an internet service not provided by the school.
21. Blackwater Integrated College is not responsible for any broadband charges incurred by the named pupil or any permitted family user of the Chromebook accessing the internet from any site other than school premises.
22. You will ensure that any internet access using the Chromebook at home is for an appropriate educational purpose.
23. All information and supporting documentation supplied by you with this Agreement will be used for the sole purpose of providing the Chromebook. Your ICT Loan Agreement and related information will be held and maintained by Blackwater Integrated College in accordance with the provisions of Data Protection Legislation. The data will not be passed to any other third party without your consent, except when the school is required to do so by law.
24. By accepting the Chromebook, you are confirming that you have read and agree to adhere to current School policies regarding the following: Acceptable Use, Data Protection, Computer Misuse and Health and Safety which are attached to this Agreement.
25. An annual fee of £35 must be paid before the Chromebook is issued. An official charger and carry pouch will be supplied to allow the Chromebook to be used at home. The Chromebook should be stored at all times in this pouch to keep it safe from damage. The Chromebook must only be charged with the supplied official charger.

Blackwater Integrated College reserves the right not to replace a lost or damaged device.

Responsible Person (Parent/Guardian/Carer) Agreement:

I have read and agree to be bound by the terms and conditions set out above.
